

Central Intelligence Agency
Office of the Deputy Director for Science & Technology

14 June 1983

Harry,

DD/A Registry
83-1026/5

The OSO and OD&E space situation, based on 1983 requirements, is bad and will be worse as we get into FY-84. As you may have noted, the S&T FTE constraint has forced us to delay as many new hires as we could. Further, the Directorate is primed to EOD at a maximum rate during the first quarter of FY-84. In order to relieve this pressure, why couldn't we plan on dealing with S&T's urgent space needs beginning in October 1983 as fulfilling FY-83 shortfalls? We could then consider our FY-84 needs as the space originally promised in FY-83 becomes available in the second/third quarter of FY-84.
